DETAILED ACTION

This Office action is in response to applicant's response filed on 27 June 2006.

Election/Restrictions

1. Claims 31-32, 34-40, 43, 45, 47, 52, 58, 62 are allowable. Claims 33, 41-42, 44, 46, 48-51, 53-57, 59-61, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of claim 31. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among species A-1, A-2, B, C, D-1, D-2, D-3, D-4, D-5, D-6, as set forth in the Office action mailed on 29 October 2004, is hereby withdrawn** and claims 33, 41-42, 44, 46, 48-51, 53-57, 59-61 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicants are advised that if any claims including all the limitations of an allowable claim is presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 31-62, 65-84 are allowed.

3. The following is an examiner's statement of reasons for allowance: Although the applicant's arguments filed on 12 April 2004 were not persuasive, based on reconsideration of the applied prior art combination of Fujiwara et al., Chance, and Kaji et al., it was determined that this combination lacks the motivation to selectively etch elemental silicon relative to at least one of an oxide and a nitride with an aqueous liquid etching solution that includes hydroxide and fluoride and has a pH of at least 10, as claimed in independent claim 31. Accordingly, the prior art rejection under 35 USC 103(a) as being unpatentable over Fujiwara et al. in view of Chance and Kaji et al. has been withdrawn.

Claims 31-62, 65-84 are allowed because the prior art of record does not teach or suggest the above claim features of independent claim 31 in combination with the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
